

PRE-TRIP INSPECTION

With winter coming to a close, riders can't wait for a good day to get their bikes out...

BEFORE TAKING YOUR RIDE:

→ BEFORE STARTING YOUR BIKE, check the following:

- Leaks
- Tire pressure & condition
- Control operation
- ALL lights (Including brake lights)
- Critical fasteners (Handle bar movement, exhaust tightness, spokes if you have them, riding pegs or floor board mounts, secure seat, etc.)
- Good fuel
- Jiffy stand & spring operative

→ NOW, START YOUR BIKE, check the following:

- Listen for any abnormal noise (after warm-up)
- Leaks (again)
- Horn operation
- Throttle response
- Shifting into gear & back into neutral

**These are the things you should check periodically*

****Doing this quick look over can save you from possible hazards while in the flow of traffic!*

Please stop by Harley-Davidson of Frederick or Williamsport for service or any questions regarding your bike!

"Let's be safe and enjoy this 2015 riding year!"

A tip brought to you by your service manager at Harley-Davidson of Frederick, Ron.
